SQL83.00

## Electromotoric Actuators

for valves with 90° angle of rotation

**SQK33.00  
SQL33...  
SQL83.00**

- **SQK33.00 operating voltage AC 230 V**
- **SQL33... operating voltage AC 230 V**
- **SQL83.00 operating voltage AC 24 V**
- **3-position control signal**
- **Nominal angle of rotation 90°**
- **Auxiliary switch and potentiometer for extra functions**
- **Manual adjuster and position indicator**
- **Reversible electric motor**

### Use

For use in heating, ventilation and air conditioning systems to operate type VKF41... butterfly valves and type VBF21..., VBG31..., VBI31..., VCI31 3-port and 4-port slipper valves as well as valves from other manufacturers (refer to «Equipment combinations»).

## Type summary

Type	Operating voltage	Positioning signal	Positioning time for 90° at 50 Hz	Positioning force
SQK33.00	AC 230 V	3-position	125 s	5 Nm
SQL33.00				12.5 Nm
SQL33.03			30 s	10 Nm
SQL83.00	AC 24 V		125 s	12.5 Nm

## Mounting kits

Type	Actuators	For valves
ASK31	SQL33.00 SQL33.03 SQL83.00	Slipper valves VBF21... (DN 65...150)
ASK32		Slipper valves VBF21...(DN 40...50), VBG31..., VBI31..., VCI31...
ASK33		Butterfly valves VKF41... (DN 40...200)
ASK40		Slipper valves from other manufacturers
ASK41		

## Accessories

Type	Description	For actuators	Mounting position
ASC9.5	Auxiliary switch	SQK33.00 <sup>1)</sup> SQL33... SQL83.00	1 x ASC9.5 or 1 x ASC9.4 or 1 x ASZ7.4 (only one accessory at a time can be mounted)
ASC9.4	Double auxiliary switch		
ASZ7.4	Auxiliary switch and potentiometer 1000 Ω		

<sup>1)</sup> In SQK33.00 only the ASC9.5 auxiliary switch can be installed.

## Order

The actuator, slipper valve, butterfly valve, mounting kit ASK... and any accessories must be ordered separately.

When ordering please specify the quantity, product name and type code.

### Example

**1 actuator SQL33.03**  
**1 mounting kit ASK31**  
**1 auxiliary switch with potentiometer ASZ7.4**

## Delivery

The actuator, slipper valve or butterfly valve, mounting kit ASK... and accessories are packed separately and delivered as individual items..

## Equipment combinations

		Electromotoric actuator				
Valves		SQK33.00	SQL33...	SQL83.00	Mounting kit	Data sheet
3-port slipper valve	VBF21...	DN 40...50			ASK32	N4241
			DN 65...150		ASK31	
4-port slipper valve	VBI31...	DN 20...40 (¾...1½")			ASK32	N4232
	VBG31...	DN 15...40 (¾...1½")			ASK40	
Butterfly valves	3-port valves of other manufacturers	DN 15...40 (¾...1½")	DN 15...125 (¾...2")		ASK41	N4291
	VCI31...	DN 20...40 (¾...1½")			ASK32	
4-port valves of other manufacturers	4-port valves of other manufacturers	DN 15...40 (¾...1½")	DN 15...200 (¾...2")		ASK40	N4291
					ASK41	
Butterfly valves	VKF41...	DN 40	DN 40...200		ASK33	N4131

## Function / mechanical design

These electromotoric actuators require no maintenance. They have a reversible synchronous motor and reduction gears with self-lubricating sinter bearings.

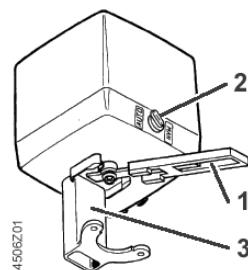

The actuator is driven by a 3-position signal from the controller and generates a rotary motion which is transferred via a driver to the butterfly valve, the 3-port or 4-port slipper valve.

The actuators are supplied with a 90° angle of rotation suitable for use with Siemens butterfly and slipper valves. During automatic operation, rotation is limited by two built-in end-switches. For non-Siemens valves, the angle of rotation in the range 70° to 180° can be selected by repositioning the switching cams..

The direction of operation of the actuator can be reversed (refer to «Commissioning»).

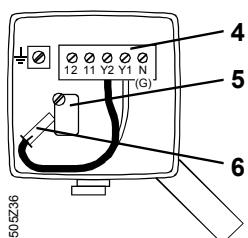

Direction of rotation of the actuator on delivery:

- Voltage at Y1 = Clockwise rotation
- Voltage at Y2 = Anti-clockwise rotation
- No voltage = No rotation; actuator fixed in relevant position

- 1 Manual lever, rotation is limited by built-in stop
- 2 Rotary «AUTO» / «MAN» selector
- 3 Yoke (e.g. mounting kit ASK31)

When the selector is set to «MAN», the valve can be operated with a manual lever.

- 4 Terminal strip
- 5 Double end switch (always factory-installed)
- 6 Plug for reversing direction of rotation

## Engineering notes

### Electrical installation

The actuators must be electrically connected in accordance with local regulations and with the connection diagrams.

**Regulations and requirements to ensure the safety of people and property must be observed at all times.**

If additional functions are to be controlled by the actuator, the ASC9... (auxiliary switch) or ASZ7.5 (auxiliary switch / potentiometer) must be fitted. The relevant switching point(s) and zero-ohm position must be noted in the plant documentation

### Mounting notes

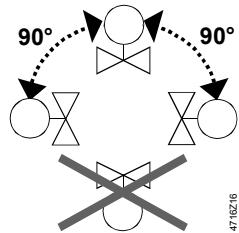

#### Overview of Mounting Instructions

Type	Mounting Instructions	
ASK31	M4290.1	4 319 5596 0
ASK32	M4290.2	4 319 5597 0
ASK33	M4111.1	4 319 5595 0
ASK40	M4291.1	4 319 5534 0
ASK41	M4291.2	4 319 5535 0

Type	Mounting Instructions	
ASC9.4	G4506.5	4 319 5537 0
ASC9.5	G4506.7	4 319 5557 0
ASZ7.4	G4506.6	4 319 5538 0

The valve and actuator can be assembled straightforwardly on site. There is no need for special tools.

#### Orientation

4716276

### Commissioning notes

When commissioning the complete motorized valve consisting of actuator, mounting kit and valve (butterfly or slipper valve), always check the wiring and test the functions. This also applies to any additional components fitted, e.g. auxiliary switch or potentiometer.

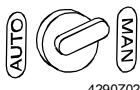

#### Note

Siemens slipper valves up to DN 50 can be commissioned without an actuator being fitted. In this case, the flow rate must be adjusted manually with the standard manual adjuster fitted to the valve.

#### Mode of operation

«AUTO» = automatic operation

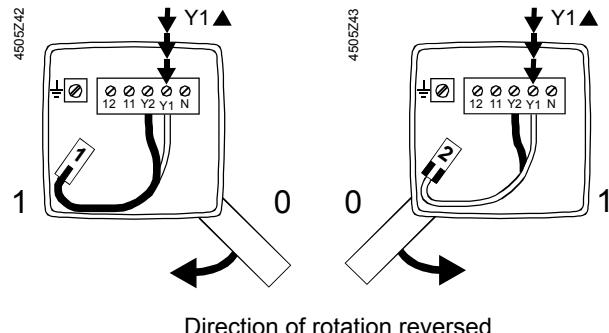

«MAN» = manual operation

#### Direction of rotation

The actuators are factory-set to rotate in clockwise direction for opening (as seen from the cover).

## Reversing the direction of rotation

The direction of rotation can be reversed by repositioning a connector located under the cover. The wiring for the OPEN and CLOSE control signal is not affected

Direction of rotation reversed

## Setting the angle of rotation

The angle of rotation is factory-set to 90°. However, the angle can be changed to between 70° and 180°. This may be necessary when using non-Siemens valves. Special notes on this subject will be found in the mounting instructions for the ASK40 and ASK41.

## Control

Every actuator must be driven by a dedicated controller (refer to «Connection diagrams»).

## Maintenance

### Caution

The actuators and butterfly valves require no maintenance.

Before performing any service work on the valve or actuator:

- Switch off the pump and power supply
  - Close the main shut-off valves in the pipework
  - Release pressure in the pipes and allow them to cool down completely
- If necessary, disconnect electrical connections from terminals.

The butterfly or slipper valve must be re-commissioned only with the manual adjuster or the actuator correctly assembled.

## Disposal

The actuator contains electrical and electronic components and must not be disposed of together with domestic waste.

Legislation may demand special handling of certain components, or it may be sensible from an ecological point of view.

**Current local legislation must be observed.**

## Warranty

The technical data given for these applications is valid only in conjunction with the Siemens butterfly and slipper valves as detailed under «Equipment combinations» and with ASK40 / ASK41 mounting kits and valves of other manufacturers.

The use of third-party valves other than those recommended by Siemens invalidates the warranty.
